

# Announcing the Winners of KBB's 2016 Design Awards

**Honorable Mention Bathroom**  
Originally built in the 1800s, the biggest challenge for designing this children's bathroom was the call for an edgy palette. The finished space needed to be functional and executed in a manner that would blend the clients' funky, eclectic aesthetic with a clean, cool sophistication. Designer Coco Kanakis, principal of Bedford Corners, N.Y.-based Spaciality Inc., used ceramic tile imprinted with the design of recycled skateboards for a sustainable and fun design.
